

## **Position: Solar Installer**

### **Job Purpose:**

As part of electrical crew, you will be supporting our solar projects with a variety of daily tasks including, but not limited to:

### **Duties and Responsibilities:**

1. Installing roof and ground-mounted photovoltaic arrays for residential and commercial applications.
2. Assisting with the installation of partial and whole-home backup power solutions including battery systems and generators.
3. Performing regular duties as assigned by the lead, such as: installation of conduit and wire (including conduit bending), troubleshooting, system testing, equipment mounting, and maintenance/service as needed for new and existing clients.
4. Reading and understanding basic blueprints and equipment specs.
5. Regularly using hand tools and power tools appropriate for the job.
6. Loading/unloading/moving a variety of materials for the job.
7. Following directives and communicating effectively and in a timely and efficient manner.
8. Adhering to safety procedures, policies, guidelines, and precautions, while ensuring the jobsite remains tidy and free of safety hazards.
9. Adapting to a variety of construction and jobsite conditions.
10. Any other project-related tasks that arise.

### **Qualifications:**

1. 1-2 years of experience installing residential and/or commercial photovoltaic systems preferred.
2. Electrical related experience preferred, but not necessary as we will train the right person.
3. Must be willing to travel.
4. Must be punctual, motivated, aware, and meticulous.
5. Must be open and willing to learn and also show initiative.

### **Knowledge, Skills, and Abilities:**

1. Ability to identify electrical parts & components and keep up with the National Electrical Code.
2. Must possess a general understanding of the electrical industry.
3. Must demonstrate problem-solving skills and enjoy collaboration with team members and with other tradespeople working on the projects.
4. Must have a basic knowledge of and safely use tools and equipment.
